The Reverend Dr. Simon Mainwaring  
All Saints' Episcopal Church  
634 W Peachtree St NW  
Atlanta, GA 30308

Dear Rev. Dr. Mainwaring,

I am writing to inform you that Egleston Hall, located on the campus of All Saints' Episcopal Church, has been nominated and selected as a 2026 Place in Peril by the Georgia Trust for Historic Preservation.

Each year, the Georgia Trust identifies historically significant sites across the state that face a serious threat or risk of loss. The Places in Peril program is intended to highlight the importance of these resources, raise public awareness, and encourage thoughtful consideration of preservation options.

Egleston Hall was selected due to its architectural and historical significance as part of the All Saints' campus and because it has been identified as at risk for demolition in connection with future redevelopment plans. Constructed in the early twentieth century and designed according to the Akron Plan, the building serves an important role in its context within the campus as well as the broader community.

The Georgia Trust would welcome the opportunity to engage with All Saints' Episcopal Church as planning efforts continue, to better understand current goals for the property and to share information about preservation resources or potential alternatives.

The Places in Peril list will be publicly announced in February 2026. Feel free to contact me to discuss things further at 404-885-7801 or [wmtchell@georgiatrust.org](mailto:wmtchell@georgiatrust.org).

Sincerely,

  
W. Wright Mitchell  
President & CEO
